Joe,

This is not a critical matter. If you have data from other sites with similar metals and concentrations, it might just help with the recurring discussion about disposal. We can talk later.

Thanks

Steven Way

Hi, Joe.

EPA asked me to request TCLP data for treatment solids generated at sites with similar contaminants as the Gold King water. This is just for informational purposes. I spoke with Patrick and he mentioned that you would be the person to ask for Alexco information.
